

Session 1: Introduction to Computers and Safe Use

Level: Comprehensive Primary

Topic: What is a Computer? Types and Basic Parts

Date: _

1. Teacher's Guide Page

NEXTGEN INNOVATE @ SCHOOL

Emerald Codelines – Teacher Session Plan

Duration: 45-60 minutes

Materials Needed: Projector or whiteboard, tablets/computers if available, printed student notes & exercise sheets, crayons/markers for drawing.

Learning Objectives

- Pupils will identify different types of computers.
- Pupils will name and recognize basic parts of a computer.
- Pupils will understand simple rules for using computers safely.

Session Breakdown

1. **Warm-Up (10 mins):** Show pictures of everyday devices (phone, tablet, laptop). Ask: "Which of these are computers?" Discuss excitedly!
2. **Main Teaching (15 mins):**
 - Explain: All these devices are computers because they follow instructions.
 - Show and label basic parts (use projected images).
 - Introduce 3 key safety rules with fun examples.
3. **Hands-On Activity (15-20 mins):** Pupils draw and label types of computers or their "safe computer station."
4. **Wrap-Up (10 mins):** Quick recap game (point and name), collect/distribute exercise sheets.

Teaching Tips

- Use lots of pictures and real objects if possible.
- Keep language simple; repeat key words.
- Encourage sharing – let pupils talk about computers at home.
- Assessment: Check drawings and exercise sheets for understanding.

Class Note – Session 1

Level: Primary

Topic: What is a Computer?

Name: _ Date: ____

Hello Young Innovators! 🌟

Today we learn about computers – they are everywhere!

What is a Computer?

A computer is a smart machine that follows instructions to help us play, learn, draw, and more!

Types of Computers We Use Every Day:

(Examples: Smartphone, Tablet, Laptop, Desktop)

Basic Parts of a Computer

Every computer has these important parts:

- **Screen** – Shows pictures and words (like a TV)
- **Keyboard** – For typing letters and numbers
- **Mouse** – To point and click
- **Brain (CPU)** – Thinks and works (hidden inside!)

Using Computers Safely

The internet is fun, but we must be safe!

My 3 Big Safety Rules:

1. Never tell strangers my name, address, or school online.
2. Always ask a grown-up before clicking new things.
3. Tell a teacher or parent if something scares me online.

Fun Activity Today: Draw your favorite computer and label its parts!

Emerald Codelines – Let's innovate together! 🚀

3. Exercise Page

NEXTGEN INNOVATE @ SCHOOL

Exercise Sheet – Session 1

Name: _ **Class:** __ **Date:** __

Part 1: Circle the Computers

Draw a circle around the ones that are computers:

(Teacher will show pictures or describe: phone, book, tablet, TV, laptop, bicycle)

Part 2: Match the Parts

Draw lines to match:

Screen → Types letters

Keyboard → Points and clicks

Mouse → Shows pictures

CPU → The brain inside

Part 3: Draw and Label

Draw ONE type of computer you like (phone, tablet, etc.).

Label at least 2 parts:

[Space for drawing]

Part 4: Safety Promise

Write or draw ONE safety rule you will follow:

(I promise to...)
