

PinkScribe Project Logbook

Student Name: Azuka Abundance-Blessing E.

Project: PinkScribe - Cute Audio-to-Text Transcription Web App (MVP)

Duration: 3 Months (July 1, 2025 - September 30, 2025)

Structure: 3 months, 4 weeks per month, 5 working days per week (Monday-Friday, excluding weekends/holidays for simplicity). Total: ~60 working days.

Objective: Document daily learning, activities, challenges, and progress toward building PinkScribe per the PRD (e.g., setup, upload logic, API integration, display, styling) and achieving MVP success criteria. Extend beyond 5-week MVP with reviews, nice-to-haves (e.g., microphone support, multi-language), and deployment.

Tech Stack (per PRD/Wireframes): HTML5, CSS3, JS (frontend); PHP (backend); Speech-to-Text API (e.g., OpenAI Whisper); XAMPP for dev, shared hosting for deployment.

Log Format: Daily entries with: Date, Learning Concepts, Activities/Class Work, Project Progress/Task, Challenges & Solutions, Time Spent, Reflections.

Month 1: July 2025 (Foundation & Setup)

Focus: Basics of web dev, environment setup, HTML/PHP forms (aligns with PRD Week 1).

Week 1 (July 1-5)

- **July 1 (Mon):**

Learning Concepts: Intro to web dev (front-end vs back-end), PRD overview (goals, users, features).

Activities/Class Work: Installed XAMPP, read PRD sections 1-3. Created simple HTML page.

Project Progress/Task: Set up PinkScribe folder in htdocs.

Challenges & Solutions: XAMPP Apache not starting - restarted services.

Time Spent: 2 hours.

Reflections: Excited to build a cute app; PRD emphasizes beginner-friendly UI.

- **July 2 (Tue):**

Learning Concepts: HTML structure (tags, forms), basic PHP syntax (echo, variables).

Activities/Class Work: Built a hello world PHP script; tested in browser.

Project Progress/Task: Added basic HTML form to index.php for audio upload.

Challenges & Solutions: Form not submitting - added method="POST".

Time Spent: 3 hours.

Reflections: Understanding how PHP integrates with HTML for dynamic content.

- **July 3 (Wed):**

Learning Concepts: Form handling in PHP (\$_POST, if statements).

Activities/Class Work: Processed a text input form to echo input.

Project Progress/Task: Added PHP to confirm form submission in PinkScribe.

Challenges & Solutions: None major.

Time Spent: 2.5 hours.

Reflections: Aligns with PRD user flow step 2-3 (upload form).

- **July 4 (Thu):**

Learning Concepts: JS basics (event listeners, alerts).

Activities/Class Work: Added JS alert to a button click.

Project Progress/Task: Added JS preview for file selection in upload form.

Challenges & Solutions: JS not loading - placed script at bottom of body.

Time Spent: 3 hours.

Reflections: Small interactions make the app more engaging, per PRD.

- **July 5 (Fri):**

Learning Concepts: Review week 1 concepts; intro to file uploads.

Activities/Class Work: Uploaded a test image via PHP.

Project Progress/Task: Tested basic audio upload (no validation yet).

Challenges & Solutions: File not saving - created uploads folder with permissions.

Time Spent: 2 hours.

Reflections: Week 1 complete; ready for file logic (PRD Week 2).

Week 2 (July 8-12)

- **July 8 (Mon):**

Learning Concepts: PHP file handling (\$_FILES, move_uploaded_file).

Activities/Class Work: Validated and uploaded a file with size limit.

Project Progress/Task: Implemented basic audio upload logic for PinkScribe.

Challenges & Solutions: Upload errors - checked php.ini for upload_max_filesize.

Time Spent: 3 hours.

Reflections: Core to PRD feature 1 (upload audio, max 10MB).

- **July 9 (Tue):**

Learning Concepts: File validation (types: MP3/WAV, sizes).

Activities/Class Work: Added type checks to upload script.

Project Progress/Task: Validated formats in PinkScribe upload.

Challenges & Solutions: MIME type issues - used \$file['type'].

Time Spent: 2.5 hours.

Reflections: Ensures supported formats per PRD.

- **July 10 (Wed):**

Learning Concepts: Error handling in PHP (custom messages).

Activities/Class Work: Displayed errors for invalid uploads.

Project Progress/Task: Added error display to PinkScribe form.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Improves user experience.

- **July 11 (Thu):**

Learning Concepts: JS for file preview (display name/size).

Activities/Class Work: JS to show selected file details.

Project Progress/Task: Integrated JS preview in PinkScribe.

Challenges & Solutions: Event listener not firing - used onchange.

Time Spent: 3 hours.

Reflections: Ties to PRD's small JS interactions.

- **July 12 (Fri):**

Learning Concepts: Week review; secure file handling basics.

Activities/Class Work: Tested uploads with invalid files.

Project Progress/Task: Full upload logic tested (PRD Week 2 complete).

Challenges & Solutions: Security concerns - researched tmp_name usage.

Time Spent: 2 hours.

Reflections: Solid foundation for API integration.

Week 3 (July 15-19)

- **July 15 (Mon):**

Learning Concepts: API intro (cURL in PHP, HTTP requests).

Activities/Class Work: Called a public API with cURL.

Project Progress/Task: Signed up for speech-to-text API (e.g., AssemblyAI).

Challenges & Solutions: cURL not enabled - checked XAMPP config.

Time Spent: 3 hours.

Reflections: Preps for PRD feature 2 (transcribe audio).

- **July 16 (Tue):**

Learning Concepts: Handling API keys (.env files).

Activities/Class Work: Stored key securely and used in script.

Project Progress/Task: Sent dummy data to API from PinkScribe.

Challenges & Solutions: .env not loading - used parse_ini_file.

Time Spent: 2.5 hours.

Reflections: Security is key for external services.

- **July 17 (Wed):**

Learning Concepts: JSON parsing in PHP (json_decode).

Activities/Class Work: Parsed sample API response.

Project Progress/Task: Extracted mock transcription text.

Challenges & Solutions: Invalid JSON - added error checking.

Time Spent: 2 hours.

Reflections: Essential for displaying results.

- **July 18 (Thu):**

Learning Concepts: Sending files to API via cURL.

Activities/Class Work: Uploaded file to test API endpoint.

Project Progress/Task: Integrated API call with uploaded audio.

Challenges & Solutions: File path issues - used full path.

Time Spent: 3 hours.

Reflections: PRD Week 3 in progress.

- **July 19 (Fri):**

Learning Concepts: API error handling.

Activities/Class Work: Handled failed API responses.

Project Progress/Task: Tested transcription with real audio (PRD Week 3 complete).

Challenges & Solutions: Rate limits - used free tier carefully.

Time Spent: 2 hours.

Reflections: Transcription works; exciting milestone.

Week 4 (July 22-26)

- **July 22 (Mon):**

Learning Concepts: Displaying dynamic content in PHP/HTML.

Activities/Class Work: Showed form results on page.

Project Progress/Task: Displayed transcription text in PinkScribe.

Challenges & Solutions: Text not appearing - used conditionals.

Time Spent: 3 hours.

Reflections: PRD feature 3 (display transcription).

- **July 23 (Tue):**

Learning Concepts: JS clipboard copy (navigator.clipboard).

Activities/Class Work: Added copy button to text.

Project Progress/Task: Implemented "Copy to Clipboard" in PinkScribe.

Challenges & Solutions: Browser permissions - tested in Chrome.

Time Spent: 2.5 hours.

Reflections: User-friendly feature per PRD.

- **July 24 (Wed):**

Learning Concepts: Basic CSS (colors, fonts).

Activities/Class Work: Styled a simple page with pink palette.

Project Progress/Task: Applied basic styling to PinkScribe UI.

Challenges & Solutions: Font import - used Google Fonts.

Time Spent: 2 hours.

Reflections: Starting PRD Week 5 (styling).

- **July 25 (Thu):**

Learning Concepts: Responsive design (media queries).

Activities/Class Work: Made form mobile-friendly.

Project Progress/Task: Ensured PinkScribe works on mobile.

Challenges & Solutions: Layout breaks - adjusted widths.

Time Spent: 3 hours.

Reflections: Meets PRD success criteria for UI.

- **July 26 (Fri):**

Learning Concepts: Week/month review; cute UI touches (emojis).

Activities/Class Work: Added animations via CSS.

Project Progress/Task: Finalized MVP styling (PRD Week 5 complete).

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: MVP functional; tested <1 min transcription.

Month 2: August 2025 (Testing & Enhancements)

Focus: Debugging, deployment, nice-to-haves (e.g., microphone, languages).

Week 1 (August 1-5)

- **August 1 (Mon):**

Learning Concepts: Debugging PHP errors (error_reporting).

Activities/Class Work: Fixed sample buggy code.

Project Progress/Task: Debugged upload/API issues in PinkScribe.

Challenges & Solutions: Undefined variables - initialized them.

Time Spent: 3 hours.

Reflections: Ensures no PHP errors per PRD.

- **August 2 (Tue):**

Learning Concepts: Edge case testing (large files, invalid formats).

Activities/Class Work: Tested with various inputs.

Project Progress/Task: Validated PRD success criteria.

Challenges & Solutions: Timeout on large files - increased max_execution_time.

Time Spent: 2.5 hours.

Reflections: App stable on desktop/mobile.

- **August 3 (Wed):**

Learning Concepts: Deployment basics (shared hosting).

Activities/Class Work: Uploaded simple app to free host.

Project Progress/Task: Deployed PinkScribe to shared hosting.

Challenges & Solutions: Config differences - adjusted .htaccess.

Time Spent: 3 hours.

Reflections: Live demo ready.

- **August 4 (Thu):**

Learning Concepts: Nice-to-have: Microphone recording (Web Audio API in JS).

Activities/Class Work: Recorded short audio in browser.

Project Progress/Task: Added microphone option to PinkScribe.

Challenges & Solutions: Permissions - prompted user.

Time Spent: 3 hours.

Reflections: Enhances PRD future features.

- **August 5 (Fri):**

Learning Concepts: Week review; multi-language transcription.

Activities/Class Work: Passed language param to API.

Project Progress/Task: Added language select dropdown.

Challenges & Solutions: API support - checked docs.

Time Spent: 2 hours.

Reflections: Expands usability.

Week 2 (August 8-12)

- **August 8 (Mon):**

Learning Concepts: User accounts basics (sessions in PHP).

Activities/Class Work: Simple login/logout.

Project Progress/Task: Added save transcriptions for logged-in users.

Challenges & Solutions: Session start - placed at top.

Time Spent: 3 hours.

Reflections: PRD nice-to-have for future.

- **August 9 (Tue):**

Learning Concepts: Database intro (MySQL with PHP).

Activities/Class Work: Created table and inserted data.

Project Progress/Task: Stored transcriptions in DB.

Challenges & Solutions: Connection errors - used mysqli.

Time Spent: 2.5 hours.

Reflections: Enables history saving.

- **August 10 (Wed):**

Learning Concepts: Retrieving DB data.

Activities/Class Work: Displayed stored data.

Project Progress/Task: Showed past transcriptions in dashboard.

Challenges & Solutions: SQL injection - used prepared statements.

Time Spent: 2 hours.

Reflections: Secure and functional.

- **August 11 (Thu):**

Learning Concepts: Advanced JS (fetch for API if needed).

Activities/Class Work: JS API call alternative.

Project Progress/Task: Optimized PinkScribe for faster loads.

Challenges & Solutions: None.

Time Spent: 3 hours.

Reflections: Improves performance.

- **August 12 (Fri):**

Learning Concepts: Week review; security best practices.

Activities/Class Work: Sanitized inputs.

Project Progress/Task: Full testing of enhancements.

Challenges & Solutions: CSRF - added tokens.

Time Spent: 2 hours.

Reflections: App more robust.

Week 3 (August 15-19)

- **August 15 (Mon):**

Learning Concepts: Code optimization/review.

Activities/Class Work: Refactored sample code.

Project Progress/Task: Optimized PinkScribe code.

Challenges & Solutions: Redundant code - removed.

Time Spent: 3 hours.

Reflections: Cleaner codebase.

- **August 16 (Tue):**

Learning Concepts: Performance testing.

Activities/Class Work: Timed API calls.

Project Progress/Task: Ensured <1 min transcription.

Challenges & Solutions: Slow API - chose faster provider.

Time Spent: 2.5 hours.

Reflections: Meets PRD criteria.

- **August 17 (Wed):**

Learning Concepts: Cross-browser testing.

Activities/Class Work: Tested in Firefox/Edge.

Project Progress/Task: Fixed browser-specific issues.

Challenges & Solutions: JS compatibility - polyfills.

Time Spent: 2 hours.

Reflections: Broader compatibility.

- **August 18 (Thu):**

Learning Concepts: Documentation ([README.md](#)).

Activities/Class Work: Wrote project docs.

Project Progress/Task: Added to GitHub repo.

Challenges & Solutions: None.

Time Spent: 3 hours.

Reflections: Professional touch.

- **August 19 (Fri):**

Learning Concepts: Month review; feedback loop.

Activities/Class Work: Self-reviewed progress.

Project Progress/Task: Final MVP tweaks.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Enhancements complete; app robust.

Week 4 (August 22-26)

- **August 22 (Mon):**

Learning Concepts: Advanced styling (cursive fonts, animations).

Activities/Class Work: Added fade-in to text.

Project Progress/Task: Polished "girly" UI per PRD.

Challenges & Solutions: Font rendering - web-safe fonts.

Time Spent: 3 hours.

Reflections: Cute theme achieved.

- **August 23 (Tue):**

Learning Concepts: Mobile optimization.

Activities/Class Work: Used dev tools for emulation.

Project Progress/Task: Tested on phone.

Challenges & Solutions: Touch issues - adjusted buttons.

Time Spent: 2 hours.

Reflections: PRD success: Works on mobile.

- **August 24 (Wed):**

Learning Concepts: Backup/version control (Git basics).

Activities/Class Work: Committed changes.

Project Progress/Task: Versioned PinkScribe repo.

Challenges & Solutions: Git conflicts - merged.

Time Spent: 2.5 hours.

Reflections: Safe progress tracking.

- **August 25 (Thu):**

Learning Concepts: User testing simulation.

Activities/Class Work: Role-played user flow.

Project Progress/Task: Gathered "feedback" notes.

Challenges & Solutions: None.

Time Spent: 3 hours.

Reflections: Improves UX.

- **August 26 (Fri):**

Learning Concepts: Month review; API alternatives.

Activities/Class Work: Tested Google Speech-to-Text.

Project Progress/Task: Switched API if needed.

Challenges & Solutions: Integration diffs - updated code.

Time Spent: 2 hours.

Reflections: Flexibility in stack.

Month 3: September 2025 (Polish & Wrap-Up)

Focus: Final testing, refinements, and project closure (up to current date Sep 22).

Week 1 (September 1-5)

- **September 1 (Mon):**

Learning Concepts: Final debugging (edge cases).

Activities/Class Work: Tested with large files.

Project Progress/Task: Fixed edge case issues in PinkScribe.

Challenges & Solutions: Memory limit - adjusted php.ini.

Time Spent: 3 hours.

Reflections: Ensures stability.

- **September 2 (Tue):**

Learning Concepts: Performance optimization.

Activities/Class Work: Reduced API call time.

Project Progress/Task: Optimized transcription speed.

Challenges & Solutions: Caching - added simple cache.

Time Spent: 2.5 hours.

Reflections: Meets <1 min goal.

- **September 3 (Wed):**

Learning Concepts: Security audit.

Activities/Class Work: Checked for vulnerabilities.

Project Progress/Task: Secured PinkScribe inputs.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Robust against attacks.

- **September 4 (Thu):**

Learning Concepts: Deployment update.

Activities/Class Work: Updated hosting settings.

Project Progress/Task: Re-deployed with fixes.

Challenges & Solutions: DB sync - exported/imported.

Time Spent: 3 hours.

Reflections: Live version updated.

- **September 5 (Fri):**

Learning Concepts: Week review; user feedback.

Activities/Class Work: Simulated user tests.

Project Progress/Task: Incorporated minor UX tweaks.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: App user-ready.

Week 2 (September 8-12)

- **September 8 (Mon):**

Learning Concepts: Advanced CSS (hover effects).

Activities/Class Work: Added button hovers.

Project Progress/Task: Enhanced PinkScribe buttons.

Challenges & Solutions: CSS specificity - used !important.

Time Spent: 3 hours.

Reflections: Polished UI.

- **September 9 (Tue):**

Learning Concepts: JS enhancements (form validation).

Activities/Class Work: Validated inputs client-side.

Project Progress/Task: Added JS validation to upload form.

Challenges & Solutions: Regex issues - simplified checks.

Time Spent: 2.5 hours.

Reflections: Reduces server load.

- **September 10 (Wed):**

Learning Concepts: API rate limit management.

Activities/Class Work: Implemented retry logic.

Project Progress/Task: Added retry for API failures.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Reliable transcription.

- **September 11 (Thu):**

Learning Concepts: Backup strategies.

Activities/Class Work: Backed up files/DB.

Project Progress/Task: Created PinkScribe backup.

Challenges & Solutions: File size - compressed.

Time Spent: 3 hours.

Reflections: Data safety ensured.

- **September 12 (Fri):**

Learning Concepts: Week review; final testing.

Activities/Class Work: Ran full test suite.

Project Progress/Task: Verified all PRD criteria.

Challenges & Solutions: Minor bugs - fixed.

Time Spent: 2 hours.

Reflections: MVP solid.

Week 3 (September 15-19)

- **September 15 (Mon):**

Learning Concepts: Code documentation.

Activities/Class Work: Added comments to code.

Project Progress/Task: Documented PinkScribe logic.

Challenges & Solutions: None.

Time Spent: 2.5 hours.

Reflections: Easier maintenance.

- **September 16 (Tue):**

Learning Concepts: Performance tuning.

Activities/Class Work: Optimized CSS/JS loading.

Project Progress/Task: Improved PinkScribe load times.

Challenges & Solutions: Resource order - deferred JS.

Time Spent: 3 hours.

Reflections: Faster app.

- **September 17 (Wed):**

Learning Concepts: User feedback integration.

Activities/Class Work: Adjusted based on mock feedback.

Project Progress/Task: Tweaked UI/UX in PinkScribe.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Enhanced usability.

- **September 18 (Thu):**

Learning Concepts: Final deployment check.

Activities/Class Work: Tested live site.

Project Progress/Task: Updated hosting with latest code.

Challenges & Solutions: DNS delay - waited.

Time Spent: 3 hours.

Reflections: Live and stable.

- **September 19 (Fri):**

Learning Concepts: Week review; project closure.

Activities/Class Work: Reviewed logs.

Project Progress/Task: Finalized PinkScribe features.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: Ready for use.

Week 4 (September 22-26, up to current date Sep 22)

- **September 22 (Mon):**

Learning Concepts: Final reflections; project wrap-up.

Activities/Class Work: Reviewed all logs and code.

Project Progress/Task: Archived PinkScribe project; prepared for handoff.

Challenges & Solutions: None.

Time Spent: 2 hours.

Reflections: 3 months complete; gained PHP/JS skills, built functional app per PRD.

(Note: Entries stop at Sep 22 per current date and time (05:07 PM WAT). Continue similarly for Sep 23-30 if extended, focusing on maintenance or additional nice-to-haves.)
